Manufacturing, Sales, & Service

Available on all Orchard Models

NEW! LectroSense Material Reduction System

Sensors turn spray on and off to spray only the trees

ADVANTAGES:

- ◆ Reduce material usage, waste and drift in your young orchards.
- ◆ Save time and money with drastically reduced fill-ups.
- ◆ Simple system to set up and operate with NO expensive components
- ◆ LectroSense can operate during the day or night.
- ◆ Reduce tractor usage, service and fuel due to higher field efficiency.
- ◆ Air wash keeps lenses clean
